

# MOÑOPOLY

¡Hola estudiantes!

I hope you are all looking after yourselves and your families.

Below, you will find a game which you can make/play over a week. The instructions are on this page. Read them **carefully!**

**You will need:**

A pen and, if possible, some crayons

Access to the internet (on a computer or another device)

A dice (if you can't find one, google 'online dice')

If possible, a printer – this will work best printed out

**You will learn:**

- To independently research a Spanish-speaking country of your choice
- To present information clearly and concisely
- To produce a fact-file about that country for other people

**How to play (1):**

- Choose any Spanish-speaking country on the planet. If you are unsure which countries speak Spanish, there are plenty of lists on google.
- Your job is to use the board below to research that country, finding out as much information as possible.
- You will need to use a variety of sites to find your information.

**How to play (2):**

- Start on the square that says 'go' – you earn 200 Lempiras (Honduran currency). Keep a note of your money as you play the game.
- Roll the dice. When you land on a square, complete it with the information about that square. When you complete it, you earn more money.
- The different colored squares are worth different amounts – you can see them here.
- Keep a note of your total money each day in the box to the right.
- When you have finished, add up your total score and then fill in the 'drawing' squares
- Spend 20 - 30 minutes per day.

How much money is each color worth?

-  10 Lempiras
-  20 Lempiras
-  30 Lempiras
-  40 Lempiras
-  60 Lempiras
-  100 Lempiras
